## Community Employment for People With Barriers

Our goal is to help people with barriers obtain and maintain suitable employment. This means that we will work closely with the employer as well as our referrals to see that the needs of both parties are met and to reduce turnover for employers. A member of our staff is never more than a phone call away.

Tired of employees who quit just about the time you get them trained? We have workers who have been with the same company for years.

## Services Available

- ◇ Screening, Evaluation and Referral
- ◇ Job Analysis/Modification
- ◇ Job Coach On Site
- ◇ Post Employment Follow-Up
- ◇ Awareness Training for Workers
